DETAILED ACTION

Allowable Subject Matter

Claims 1-3, 7-12, 18, and 19-23 are allowed.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13-17 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically the correlation and identification of the line card structure or component within the subscriber line interface circuit that is capable of carrying out a functions disclosed in claim 13.

Further, claim 13 provides for the use of a subscriber line interface circuit and a digital signal processor, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.
